## UNIVERSITY SERVICES

### *Service Grants*

Green Grant for Edible Garden and Farm Lab on the NYU Shanghai New Qiantan Campus

NYU Office of Sustainability, March 2022–February 2023, USD 20,000, PI.

*The overall mission of this grant is for the Edible Garden and Farm Lab to nourish the entire NYU Shanghai community with its flourishing urban garden. The garden's creative living environment will foster experimentation, teaching, and research. Its outdoor classroom space will inspire learning and play in areas such as urban agriculture, sustainable technologies, green business, soil-based agriculture, hydroponics, composting, solar energy, and more.*

Green Grant for Metal Cups, Or: Phase-out of Single-use Plastic-Bottled Water on the Shanghai Campus  
NYU Office of Sustainability, AY 2019–2021, USD 14,000, PI.

*With this grant, I have organized a taskforce to combat single-use plastics at NYU Shanghai. This taskforce consists of faculty, staff, and students. We have used a portion of the grant to design and purchase 6,000 metal cups for use by the NYU Shanghai community. The metal cup has become an identifiable symbol of the NYU Shanghai community, so much so that every member of the Class of 2020 was given a commemorative metal cup as graduation gift. The taskforce continues to investigate better mechanisms for awareness-building and sustainability education on campus and beyond. It also maintains an active research agenda into the best practices in campus sustainability around the world.*
